Dear Boris:-

You will hear more detail of our interesting work in Russia a bit later when I've more time to write. But now I have a favour to ask of you which will be extremely helpful to me.

Dr. Kuzmin is a person of some importance in Physical Education in Moscow. He speaks very highly of you and of your friendship. It would be worth-while if you could mention me favourably when writing to him.

Thanking you for this favour,

I am,

Very cordially yours,

H. D. Anderson

Dear Anderson:

Was glad indeed to hear from you & of your work.
~~Am glad~~ Was delighted indeed to know that Dr. Kuzmin
remembered me. You may be interested to know that I have
graduated from Springfield College in '24 and at present
am in Public School work in Los Angeles, though I tried hard
to be with you, where I believe I could be of some help.

Will be delighted to hear more about your work. I a
good Californian may help you I will be glad to do it.
Please forward the enclosed letter to Dr. Kuzmin. I must
send it thus you as I do not know his address.

Hoping to hear from you again

Very cordially yours
Sincerely yours

H. D. Anderson D.F.S.

AIR LETTER

01-647
May 23rd 1975

Dear Brian,

I return your application for
a Reader's Club. I return to quickly
find to get in touch with
Sir Owen in the near future. I shall
write to him & mention my name
His address in the current Reader
Phone book is 7 King St., London SW1.
I will also get in touch with
Henry Adam - he lives in 80 Mayfield
Edinburgh 7. He is a "D" now works in
Dept of Pharmacology.

Of your hotel the 'President' is
nearest to Chancery Lane and 'Royal
Traveller' would be quite close but
Campbell and is in my book.
The Savoy - The Strand W22 - would
be very convenient for you but is
probably very expensive. My advice
would be to book in for a few nights
and then take a look round. I do not
think it will be too difficult to find
somewhere - meanwhile I will make
some enquiries.

I should ask Sir Owen about
the other people you name. I do
not know them at all. It is all
30 years ago so much can have

28

at the President

(Correspondence)

Barnes, John

55

afford to them kind 1965!
If I get any more information
I will write again.
Meanwhile one piece of advice -
Do not take a taxi (= cab) from
London Airport - take the Airbus
bus & a taxi from the
terminal building in London!
Look forward to hearing from
you when you get here - meanwhile
I can be of any use help
Please let me know.

Best wishes

John. T. Sauer

Dear Boris,

Thank you for your letter of August 6th and the order forms for your book. I have sent mine on to the bank, and I hope that the six dollars will eventually reach you. I have sent the spare copy to Henry Adam who is still in Edinburgh, but I have not seen him for nearly a year. I am looking forward to being reminded of those interesting days in the Alsos Mission.

If I ever find my way to your part of the world, I will certainly look you up.

All good wishes,

Yours sincerely,

COMMITTEE ON FOREIGN RELATIONS

May 18, 1929.

Boris T. Pash,
c/o Hollywood High School,
Hollywood, California.

Dear Sir:

I am in receipt of your letter relative to your plan to bring the Soviet Olympic team to the United States for the Olympic games in 1932. This would be a splendid thing to do and I wish I were in a position to encourage you. But I am not.

You ask for my opinion as to what our government would think of the plan. Heaven only knows! What our government would think of anything which touches Russia, or the Russian situation, it is hard to foretell. I would not undertake the task. The presumption would be, judging the future by the past, that our government would look upon it with fear and trembling. They would contemplate possibly the overthrow of our government, - at least great disturbances and communistic outbreaks in all parts of the country. Of course, there might come a change between now and 1932. But of that I dare not prophesy.

I am sorry I can not write you more encouragingly. But I know how deeply and seriously and fearfully our government contemplates anything which relates to Soviet Russia.

Very respectfully,

W. E. Borah

ed with the situation and can answer
k hlm.

Major Rudisill a receipt for the \$400
\$400 to be used in payment for a
ter half of June and the months of

covered please communicate with
BERNARD T. NORMAN, P. O. BOX 3089,
LA. Arrangements have already been
could suggest that in writing you
some language commonly known to us.
ld be a proper substitute. In refer-
airplane landing fields can be located
MTS can be substituted for planes
to indicate gasoline storage. You can
always write a letter giving the exact name of the location you are in and
say that you "haven't found any BASEBALL DIAMOND on which to play but that
supplies are available; there are plenty of BASEBALLS around the neighbor-
hood and a game could be started as there are enough candidates", which
would indicate that there is plane fuel there available for use by any
planes. Refer to any enemy agents as UMPIRES; that at least would give
me some mental satisfaction for all the times you have jipped me on the
ball diamond. In the same manner you can refer to submarine bases as
HANDBALL COURTS or any other playground court and the submarines as
PARTICIPANTS and submarine fuel as EQUIPMENT. If you decide to work out
a more acceptable scheme before you leave you can leave it with Major
Rudisill in a sealed envelope and he will send it to me. I am sure your
ideas will meet with approval. In addressing your letters to me you can
always start in the customary fashion which will be "Dear Doc", which
n't be new to you.

Letter to Coney, 9 June 1942

Instructions to a peace-time
associate who went into Baja
California with a specific
mission (undercover) to look into
any possibility of Japanese
activities, open or clandestine,
in support of the enemy

B.B.

always write a letter giving the exact name of the location you are in and say that you "haven't found any BASEBALL DIAMOND on which to play but that supplies are available; there are plenty of BASEBALLS around the neighborhood and a game could be started as there are enough candidates", which would indicate that there is plane fuel there available for use by any planes. Refer to any enemy agents as UMPIRES; that at least would give me some mental satisfaction for all the times you have jipped me on the ball diamond. In the same manner you can refer to submarine bases as HANDBALL COURTS or any other playground court and the submarines as PARTICIPANTS and submarine fuel as EQUIPMENT. If you decide to work out a more acceptable scheme before you leave you can leave it with Major Rudisill in a sealed envelope and he will send it to me. I am sure your ideas will meet with approval. In addressing your letters to me you can always start in the customary fashion which will be "Dear Doc", which can't be new to you.

June 9, 1942

Dear Coney:
I am sorry that I am not able to come down to Los Angeles to give
you final instructions but through pressure of work I was forced to remain
in San Francisco and had to ask Major Rudisill to give you this letter.
Major Rudisill is thoroughly acquainted with the situation and can answer
any questions that you may wish to ask him.

May I suggest that you give Major Rudisill a receipt for the \$400
which he will turn over to you, these \$400 to be used in payment for a
special mission to last during the latter half of June and the months of
July and August.

When you get to the area to be covered please communicate with
me frequently by using the address DR. BERNARD T. NORMAN, P. O. BOX 3089,
RINCON ANNEX, SAN FRANCISCO, CALIFORNIA. Arrangements have already been
made to clear this box. However, I would suggest that in writing you
don't refer to matters direct but use some language commonly known to us.
I suggest that the ATHLETIC FIELD would be a proper substitute. In refer-
ring to any places of interest where airplane landing fields can be located
refer to BASEBALL DIAMONDS; GLOVES or MITTS can be substituted for planes
while BATS or BASEBALLS will be used to indicate gasoline storage. You can
always write a letter giving the exact name of the location you are in and
say that you "haven't found any BASEBALL DIAMOND on which to play but that
supplies are available; there are plenty of BASEBALLS around the neighbor-
hood and a game could be started as there are enough candidates", which
would indicate that there is plane fuel there available for use by any
planes. Refer to any enemy agents as UMPIRES; that at least would give
me some mental satisfaction for all the times you have jipped me on the
ball diamond. In the same manner you can refer to submarine bases as
HANDBALL COURTS or any other playground court and the submarines as
PARTICIPANTS and submarine fuel as EQUIPMENT. If you decide to work out
a more acceptable scheme before you leave you can leave it with Major
Rudisill in a sealed envelope and he will send it to me. I am sure your
ideas will meet with approval. In addressing your letters to me you can
always start in the customary fashion which will be "Dear Doc", which
won't be new to you.

Under no circumstances are you to discuss this with anyone nor will you tell anyone of your mission. This includes any U. S. Government or Army or Navy officials. Under no circumstances should you tell any U. S. Consular Officer or members of any Army or Navy missions whom you meet down there that you are on an assignment for me or for the Army Intelligence. Also, I want to let you know that there is no other man down there working for us so if anyone tries to catch you by trying to tell you that they are working for the Army don't fall for such a simple trick.

If you should happen to have a Southern California Automobile map of Baja California you can indicate positions on the map by lettering the horizontal lines like a football field every 15 yards, starting from the lower left-hand corner and marking the lines up, the first line to be 5, the next 10, etc. until you get to 50. The line just below LA PAZ should be marked 15. The horizontal lines, starting with the lower right-hand corner, will be marked with letters in reverse from the bottom of the alphabet. The first line with a 100° mark on it will be "Z", the next "Y", the one to the right of LA PAZ will be "X", the next one "W", etc. so that if you want to indicate LA PAZ you will mark 15.2 and W.7. Major Rudisill can explain this method to you. Again, if you find a more simple method of indicating your location do so and leave that with Major Rudisill. Do not put any marks on the map you will take but retain them in your head.

We are specifically looking for caches of fuel oil for airplanes, possible pre-arranged landing positions for planes and planes, if such are located there. Also the same information regarding submarines.

In addition to this I am sure you could get some valuable information on the activities of the SINARQUISTA group in Baja, California. It has been reported to me that the SINARQUISTA group is organized ostensibly for colonization and is a group which would oppose the present Mexican policies. We would like to know the name of any leader, Mexican as well as foreign, location of their various units and whether or not they are armed and any additional information which you may pick up.

I would appreciate it if you would look for the same information on any other groups of an anti-American nature which you may find in that area.

Please destroy this letter and do not take it out of Major Rudisill's office.

Good luck to you and let me hear from you often. At times when you may not have actual news for me drop me a line anyway, addressing it to our pre-arranged box address.

Yours sincerely,

CORRESPONDENCE
